DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 11, 12 and 15-17 are rejected under 35 U.S.C. 102(b) as being anticipated by U.S. 5,291,719 to Buster.

Buster discloses the limitations of claims 11, 12 and 15-17 when the piece of siding is the previously installed piece of siding.

With respect to the end portion in claim 11 and the end edge in claim 16: These limitations are met when the tool is placed on the front surface of the siding and against the end edge of the siding.

With respect to claim 15 and "for supporting the piece of siding above a previously installed piece of siding in a lower course in an overlapping manner": This intended use has not been given any patentable weight since it has been held that a recitation with respect to the manner in which a claimed apparatus is intended to be employed does not differentiate the claimed apparatus from a prior art apparatus satisfying the claimed structural limitations.

Ex parte Masham, 2 USPQ2d 1647 (1987).

Response to Arguments

3. Applicant's arguments filed March 21, 2005 with respect to the rejected claims have been considered but are moot in view of the new ground(s) of rejection.

Allowable Subject Matter

4. Claims 1-10 and 21-28 are allowable.
5. Claims 13, 14 and 18-20 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten to include all of the limitations of the base claim and any intervening claims.
6. As allowable subject matter has been indicated, applicant's reply must either comply with all formal requirements or specifically traverse each requirement not complied with. See 37 CFR 1.111(b) and MPEP § 707.07(a).
